**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm a residential consumer and if you change the rules around broadband competition it will affect me and my family negatively.

I previously only had DSL that was spotty and intermittent. Now with Sonic (a residential provider) I have a reliable, fiber optic, ultra fast connection that allows me to stream movies, operate my security system, participate in educational opportunities and run my small business. My phone also allows me to have a local landline at a competitive price. Please don't change these rules and take these much needed affordable services away from me and my family.

At a time when so many things are unaffordable to middle class Americans like myself, please don't make an essential service like a reliable, fast, internet connection out of my grasp too. Americans need your help so please provide it by keeping broadband affordable with competitive local carriers. Large corporations don't need your help, the little guy does.

Thank you for your consideration.
